Nature of Organization

National Diaper Bank Network, Inc. (the Organization or NDBN) is a not-for-profit corporation established under the laws of the State of Connecticut and operates as a human services organization with administrative offices in New Haven, Connecticut. Through awareness, assistance, and community, the National Diaper Bank Network is dedicated to helping individuals, children and families access the basic necessities they require to thrive and reach their full potential.

Programs

Network Assistance - NDBN mentors individuals and communities starting sustainable nonprofit programs that distribute diapers, period supplies and/or other material basic necessities to individuals, children, and families. NDBN also helps existing diaper banks and period supply programs do more with available resources. NDBN confers membership to programs that meet operational standards of success. NDBN also provides technical assistance tailored to the needs of member programs. NDBN offers free and fee-based opportunities and support services (e.g., bulk buying programs) to its members. Through its corporate sponsorships, NDBN distributes donated diapers, and other material basic needs goods, to its members. NDBN distributes more than 20 million diapers donated annually by sponsors Huggies. In addition, NDBN administers the over \$100,000 "Funds for Change" grant program, the only national competitive award given exclusively to diaper bank and period supply programs. NDBN also organizes and hosts the annual U.S. Conference on Poverty and Basic Needs to enhance professional development, organizational standards, and peer-to-peer collaboration.

Alliance for Period Supplies—an NDBN program—has distributed more than 30 million period products (pads and liners) donated by founding sponsor U by Kotex to more than 120 allied programs in the U.S. Programs also receive expert technical assistance as described above. Alliance for Period Supplies hosts the National Summit on Period Poverty Leadership as part of the U.S. Conference on Poverty and Basic Needs, which fosters collaboration and support among people and organizations working to address period poverty, period stigma, and menstrual equity in the United States.

Awareness - NDBN brings national attention to the issues of diaper need and period poverty by focusing on the impact that a lack of material basic needs has on children and families living in the U.S. Awareness is expanded through the educational outreach to the general public as well as local and national leaders via media and proprietary initiatives. As the recognized center of authority on diaper need in America, NDBN collects, analyzes, and reports relevant data to advance policy/advocacy efforts related to diaper need, child poverty, and the physical, mental and economic well-being of children and families. NDBN advocacy efforts include National Diaper Need Awareness Week and NDBN Lobby Day in D.C. (both annual events).

Programs (Continued)

NDBN helps shape public opinion, foster academic research, and guide state and national policies.

Bulk Purchasing Program – Qualified NDBN and Alliance for Period Supplies member basic needs banks can participate in exclusive purchasing programs created by NDBN and supporting manufacturers. Eligible programs can place monthly, quarterly or annual orders of diapers and/or period supplies through NDBN and Alliance for Period Supplies, and receive shipments of diapers and/or period supplies at costs well below wholesale. Basic needs banks can leverage donated dollars to purchase more products at wholesale versus at retail. For example, programs can purchase twice as many diapers, on average, in the sizes most needed in the local community.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Basis of Presentation

The Organization reports net assets, revenues, expenses, gains and losses which are classified according to two classes of net assets: with donor restriction and without donor restrictions. Net assets without donor restrictions are available for use at the discretion of the Board of Directors and/or management for general operating purposes. Net assets with donor restrictions consist of assets whose use is limited by donor-imposed, time and/or purpose restrictions.

Use of Estimates

The Organization uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Organization considers all unrestricted, short-term, highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

NATIONAL DIAPER BANK NETWORK, INC.

NOTES TO THE FINANCIAL STATEMENTS

Note A – Significant Accounting Policies (Continued)

Concentration of Credit Risk

Financial instruments that potentially subject National Diaper Bank Network, Inc. to significant concentrations of credit risk consist principally of cash and cash equivalents. Accounts at financial institutions are insured by the Federal Deposit Insurance Corporation for up to \$250,000. At June 30, 2021 and 2020, National Diaper Bank Network, Inc. had uninsured balances of \$369,693 and \$1,267,274, respectively.

Fixed Assets

The Organization follows the practice of capitalizing all property and equipment with a cost exceeding \$1,500. Depreciation is computed using the straight-line method over the estimated useful lives of 5 years. Repairs and maintenance are charged to expense as incurred. There are no planned major maintenance activities. For assets sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in change in net assets for the period.

Fair Value

The Organization uses fair value for reporting financial assets and liabilities. A hierarchy for reporting the reliability of input measurements is used to assess fair value for all assets and liabilities. Fair value is defined as the selling price that would be received for an asset, or paid to transfer a liability, in the principle or most advantageous market on the measurement date. The hierarchy established prioritizes fair value measurements based on the types of inputs used in the valuation technique. Certain financial instruments are carried at cost on the balance sheet, which approximates fair value due to their short term, highly liquid nature.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Occupancy and depreciation expenses are allocated based on estimate of square footage used in each functional category. Salaries and insurance expense are allocated based on the estimate of employee time spent in each functional category. Certain categories of expenses are attributable to more than one program or supporting function and are allocated on a reasonable basis that is consistently applied.

NOTES TO THE FINANCIAL STATEMENTS

Note A – Significant Accounting Policies (Continued)

Deferred Revenue

The Organization receives membership dues in December for the following calendar year. One half of membership revenue for the following fiscal year is deferred until the start of the next fiscal year. Additionally orders that have been paid for, but not filled until the following year are recognized as deferred revenue on the balance sheet. Deferred revenue represents a contract liability on the statement of financial position.

Revenue Recognition

Contracts are entered into with customers for the exchange of diapers, period supplies and/or other material basic necessities. The contracts are short-term in nature and revenue is recognized when delivery and all other performance obligations have been fulfilled.

Grants and Contributions

Contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for specific purposes are reported as contributions with donor restrictions that increases that net asset class. When donor restrictions expire, that is, when a time restriction ends and/or a purpose restriction is fulfilled, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restriction.

In-kind Contributions

The Organization records in-kind transportation costs and in-kind goods based on the fair value hierarchy levels described in generally accepted accounting principles. The Organization recognizes donated services if they create or enhance non-financial assets or require specialized skills and would typically be purchased if not provided by donation. In-kind contributions are recognized as revenue when received and as expenditures when the resources are consumed.

Contributed Services

A substantial number of volunteers have contributed significant amounts of their time to the Organization's programs and activities. No amounts have been reflected in the financial statement for those services since they do not meet the criteria for recognition.

Income Taxes

The National Diaper Bank Network, Inc. is a not-for-profit organization that is exempt from income taxes under Internal Revenue Code Section 501(c)(3) and comparable state law. Accordingly, no provision for income taxes is made in the financial statements.

Presentation of Certain Taxes

The Organization collects various taxes from customers and remits these amounts to applicable taxing authorities. The Organization's accounting policy is to include these taxes in revenues and cost of sales.

Uncertain Tax Positions

The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as liabilities for 2021 or 2020. The Organization files Form 990 in the U.S. federal jurisdiction. The Organization is no longer subject to examination by the Internal Revenue Service for years before 2017.

Advertising Expense

The Organization expenses advertising as costs are incurred. Total advertising expense was \$5,963 and \$3,260 for the years ended June 30, 2021 and 2020, respectively.

Prior Year Comparative Totals

The financial statements included certain 2020 summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a complete presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the 2020 financial statements from which the summarized information was derived.
