

Georgia

Diaper Need and Its Impact

What is Diaper Need? Diaper need is the inability to provide a sufficient supply of diapers to keep a baby clean, dry, and healthy.

A study of families who received diapers from July 2021 through April 2022 from Georgia diaper banks examined the impact of diaper need. The study found that when families receive diapers, **more families are able to work or attend school, healthcare spending is reduced, and children are healthier.**

Georgia: Who's at Risk of Diaper Need *

Total Population Under Age 3	350,163	WIC Recipients that are Infants	27%
Infants and Toddlers living at <100% FPL	22%	SNAP Recipients Under Age 5	12%
Infants and Toddlers living at <200% FPL	44%	Families on TANF with a Child Under Age 3	15%
TANF Monthly Benefit Family of 3	\$280	Births Cover by Medicaid	47%
Monthly Diaper Cost as % of TANF	29%	Minimum Hourly Wage in Georgia	\$7.25

Households Using Diaper Banks

- **165** Georgia diaper bank recipients surveyed.
- **93%** of families receiving diapers have received diapers for one year or less.
- **77%** of families anticipated they would need future support for one year or less.
- **56%** reported income less than \$25,000.
- **92%** reported income less than \$50,000.
- Of families surveyed, **73%** of children were insured by Medicaid and **15%** of children were uninsured.

Impact on Employment

- **74%** of families receiving diapers in Georgia are working and still are unable to afford an adequate supply of diapers.
- **13%** of adults are working two or more jobs and still struggling to afford diapers.
- **32%** of households had an adult enrolled in a school or job training program. As educational attainment rises, wages increase and unemployment rates fall.

Impact on Healthcare & Illness

Families reported that after receiving diapers from a Georgia diaper bank, their children experienced:

- **fewer** cases of diaper rash and severe diaper rash.
- **fewer** cases of urinary tract infections.
- **fewer** visits to their pediatrician, urgent care, emergency room, and hospital admissions for diaper-related illnesses.

Impact on Childcare

- **98%** of childcare providers required families to provide diapers.
- **77%** of families using childcare rely on childcare so an adult in their household can go to work.
- **93%** of children enrolled attend 3+ days per week.
- **1 in 10** families use childcare to allow an adult to attend school or a job training program.
